EDUARDO OLIVEIRA

Telecommunications Engineer

Portugal | eduardooliveira1995@gmail.com | LinkedIn | Credly | GitHub

PROFESSIONAL SUMMARY

Telecommunications Engineer with 5+ years of experience across mobile and fixed networks. I started in radio network planning and optimization, working on Nokia projects for mobile operators in Portugal and Denmark, and today I work on Nowo's TV and HFC platform: integrating channels, validating set-top box software, running the video CDN and operating a Remote PHY access network in a multi-vendor, Linux-based environment.

I hold AWS (Cloud Practitioner, AI Practitioner) and Microsoft Azure (Administrator Associate, Fundamentals) certifications and I'm currently preparing for the AWS Solutions Architect – Associate. My focus is on combining my network and video background with cloud infrastructure and AI.

CERTIFICATIONS

- **AWS Certified Cloud Practitioner (CLF-C02)**
- **AWS Certified AI Practitioner (AIF-C01)**
- **Microsoft Certified: Azure Administrator Associate (AZ-104)**
- **Microsoft Certified: Azure Fundamentals (AZ-900)**
- AWS Certified Solutions Architect – Associate *(In progress)*

SKILLS

Professional skills: Problem solving, Root-cause analysis, Working under pressure, Collaboration, Continuous learning
Video & TV platforms: TV & radio channel integration, STB software QA, CDN operations, Video processing & encoding
Fixed & IP networks: HFC, Remote PHY, IP networking, Multi-vendor operations
Mobile networks: 2G / 3G / 4G planning, Parameter optimization, Neighbor planning, KPI analysis
Cloud & AI: Microsoft Azure administration, AWS, AI & generative AI fundamentals
Systems & scripting: Linux, Python, Monitoring, Troubleshooting

PROFESSIONAL EXPERIENCE

Telecommunications Engineer — TV & HFC **May 2022 – Present**
Nowo · Portugal

- Implement, integrate and maintain TV and radio channels across the network.
- Run quality assurance for set-top box (STB) software and firmware: testing, validation and issue reporting.
- Manage and optimize the video CDN built on Broadpeak solutions.
- Operate and manage the HFC network on a Remote PHY architecture.
- Work daily with Linux-based TV platforms for troubleshooting, monitoring and operational tasks.
- Collaborate with multiple vendors and technologies in a multi-vendor environment.

Technologies & vendors: Arista, Juniper, Cisco, Huawei, AWS Elemental, Harmonic, Tandberg, Arris, Broadpeak

Junior Telecommunications Engineer **Feb 2021 – May 2022**
Capgemini Engineering · Nokia projects

NOS Portugal · *Radio network planning*

- Planned PCI/RSI, scrambling codes, BCCH, HSN and MAIO across 2G, 3G and 4G layers.
- Defined neighbor relations and optimized network parameters.
- Adjusted the live network to meet customer KPI targets.

TTN Denmark · *Event operations*

- Created parameter-change and rollback plans for major events.
- Built and analyzed KPI reports before, during and after each event.

EDUCATION

Degree in Electrical and Computer Engineering **2017 – 2020**
Polytechnic Institute of Setúbal

Higher Technical Course in Networking and Systems **2015 – 2017**
Polytechnic Institute of Setúbal
